

It's Time Australia Exits the W.H.O

The World Health Organization (WHO) is an agency of the United Nations (UN) and a World Economic Forum (WEF) partner. Their 'One Health' agenda is impacting the cost of electricity and fuel, food security and the education of our children. They are seeking the ability to control Australians.

Why does it matter?

One of the many proposed amendments to the IHR includes removal of wording such as "dignity, human rights and fundamental freedoms"

This should alarm every individual on our planet and is why we all need to contact our parliamentary representatives.

This is why **It's Time Australia Exits the W.H.O**

You can help!

Write a letter

Still the best way to let your member know, you know what is happening and what you want them to do about it.

This website will help you at:

AustraliaExitTheWHO.com/contact-mps/

Educate family and friends

You will find articles, videos and supporting documentation to help have discussions with family and friends that are not aware of what is at stake. For all the resources you need go to:

AustraliaExitsTheWHO.com

Become a volunteer

Email your interest to ausesitswho@proton.me

What is the Threat?

Human Rights Removal

- Human Rights being removed
- Personal autonomy violated
- Possible future lock-down orders

Mandatory Medical Treatments

- Possible violations of bodily autonomy
- Forced vaccinations
- Forced separations

Global Health Certificates

- Undue surveillance
- Loss of privacy
- Loss of freedom of travel

Funding International Organisations

- Proposed 5 % of Health Budget to go off shore
- Australian Health system needs urgent funds and staff
- Aussies are facing cost of living crisis due to the last pandemic
